**1. DEFINITIONS**

The Society	means The Australian Bazadais Cattle Society Inc.
Breed	means the Bazadais breed of cattle
The Regulations	means the regulations of The Australian Bazadais Cattle Society Inc.
The Bazadais Herd Book Register	means the book of the Society in which records of individual animals are kept, whether published or not, contained in computer tapes, discs or other such information storage system. It is abbreviated to "Register" throughout the regulations.
Full Blood	It is recognised that Full-Blood for Bazadais is an international term used overseas to denote Bazadais whose pedigree consists solely of animals of pure French Bazadais origin. To enable the Society and its members to respond to pedigree enquiries, particularly in respect of the potential to export, the Bazadais Herd Book will keep a record of which Bazadais being used in Australia meet the international definition of "Full-Blood."
Pure Bred	Means the animal is registered by the Society as a pure bred. It denotes that a particular animal is 100% Bazadais as far as the Society is concerned. (15/16 is recognised as Pure bred in females and 31/32 for male cattle).
Donor Sire	Donor Sire is a registered male Bazadais animal, may also be registered in a Herd Book outside of Australia and considered by the Society as suitable for registration of progeny born into herds of non - owner of the bull. Particularly for imported semen use.
Donor Dam	Donor Dam is a registered female Bazadais animal, registered in a Herd Book outside of Australia and considered by the Society as suitable for registration of progeny born into herds of non - owner of the dam. Particularly for imported embryo use.
Herd Designation	is a unique identification for each herd. It comprises of three letters, allotted by the Society to each herd accepted for registration. The herd Designation is part of the tattoo identification with which each Bazadais or Bazadais infused animal must be identified with in the off ear or off and near ear prior to registration.
Grade	Denotes the proportion of the Bazadais blood in an animal.
Grade Code	means the number or letter denoting the grade of an animal or the section of the register in which the animal is registered.
Year letter	means the letter denoting the year of birth of a registered animal.
Calf drop Number	Means the consecutive number allotted by the herd owner to each calf born in his herd.
Registered Owner	is the owner as recorded in the Herd Book.
Breeder	is the registered owner (or nominee owner) of the dam at the time of conception of her calf /calves.
Breeding Year	means the calendar year from January 1 to December 31.
Member Nominee then Service, Served Mated by	may be an individual, partnership or a company. a member other than an individual must advise the Society of a nominee who is recognised as the representative for the member. includes insemination by Artificial Insemination.
Stud Prefix	means a word or words recorded by the Society to identify any herd. Up to 16 characters including spaces may be used (minimum 2).

Name	means a word or words recorded in the register to identify an animal that is in addition to the Stud Prefix. Up to 16 characters including spaces may be used.
Identification animal	in relation to an animal means the unique series of numbers and letters on the either as a tattoo Identification is composed of Herd Designation, Grade Code, Year Letter and Calf drop number.
Performance Recording	the measuring of various items of performance of animals during growth particularly weight at 200 days, 400 days and 600 days; grade and conformation; milking ability (dams); scrotal circumference and serving capacity (bulls).

## 2. MEMBERSHIP AND HERD ENROLMENT

- (a) Membership
- (1) Every member shall within 3 months of his admission, apply for enrolment of his herd and shall with his application provide the information required in relation to his herd and tender the fees which would be payable upon enrolment of his herd.
  - (2) Council shall allot to each herd on registration a **herd designation** for the exclusive use of the registered owner of the herd. Each registered Herd Owner shall also apply to the council for approval of a **herd prefix** which consists of not more than 16 characters including spaces and which shall remain the exclusive property of the Herd Owner.
  - (3) A member of The Australian Bazadais Cattle Society can not be a member in any other Australian Bazadais/e Breed Society.

(b) Associate and Commercial Membership

Any person, partnership or company may apply to the Society for Commercial or Associate Membership. This encourages breeders of cattle other than registered Bazadais and people, companies or organisation who are not breeders of cattle but who wish to be members of the Society.  
Herd Prefixes are not registered for Associate or Commercial Members.  
This entitles the member to be on the mailing list for all newsletters and promotional material, on a trial basis for first two years.

(c) Junior Membership

Any person under 18 years of age may apply to the Society for Junior membership. Junior members, or junior partnerships, may apply to register animals if they are 16 years or above and have current (junior) membership of The Australian Bazadais Cattle Society Inc. In order to register animals these junior members must also apply for herd designation and stud prefix (and pay the appropriate fees). In a junior membership, all partners must individually qualify for junior membership. The name and address and signature of a legal guarantor must be submitted with the application. All applications, transfers and transactions must be counter signed by the approved guarantor.

Note: Junior membership is required to be upgraded to full membership status when the junior member turns 18 years of age.  
Such upgraded full members shall retain their herd designation and stud prefix.

(d) Honorary Life Membership

The council may elect as an honorary life member of the society any person who in the opinion of the Council is considered to have advanced the interests of Bazadais cattle. An honorary life member shall have all the rights and privileges of a member.

(e) Joining Fee

Applies to Full stud membership, Commercial and Associate membership at a fee that shall from time to time be determined by the council. No joining fee applies to Junior membership.  
Members rejoining the Society or members transferring from another Bazadais breed Society are exempt from paying the joining fee.

### 3. ELIGIBILITY FOR REGISTRATION

#### ONLY DNA PROFILE IDENTIFICATION IS REQUIRED FROM ANIMALS REGISTERED PRIOR TO 26.11. 2005

The Bazadais Recording Register shall contain the following sections:

(a) Grading up

Section Males and Females may be admitted to the Grading-up section. Animals eligible for registration will be subject to DNA recording and may be subject to inspection..

Animals registered in this section shall be given a Grade Code.

Application for registration of an animal in the Grading up Section shall be made on a form approved by the council (see Appendix II) before the animal is 270 days old (nine months).

Application for registration made after 270 days (9 months) from the date of birth of the animal shall be charged at the prescribed late fees.

Application for registration of an animal when it is older than 12 months of age shall be subject to council approval.

Females

Females by a registered Full blood Bazadais sire out of a base female of any breed or cross of any breeds may be admitted to the Grading-up section.

Females shall be entered according to the following grades:

0 = Base Dam

1 = Half bred

2 = Three-quarter bred

3 = Seven-eighths

P = Pure bred Bazadais in the Australian Herd Book

Males

Only Full blood bulls are eligible for use in Grading-up programmes

Males may only be registered as pure with an additional cross.

P = 31/32

		<b>Dam</b>				
		Base	1/2 Bred	3/4Bred	7/8Bred	P Bred
<b>Sire</b>	Full-Blood	1	2	3	4/P	

(b) Pure Bred  
Section

Animals in the following Categorises may be admitted to the Pure Bred Section:

- (1) Animals registered as full-blood or pure breeds in other recognised Bazadais breed organisations must be presented to the Australian Registrar for verification.
- (2) Animals bred in Australia whose Sire and Dam are registered in the Pure Bred section.
- (3) Animals whose parents are a registered Bazadais Full Blood Bull and a registered 7/8th female. Should such animals be born outside Australia and be intended for import into Australia they shall comply with Clause (1) of this section before Australian registration as Pure breeds may be bestowed upon them.

Animals in this section will be subject to DNA and may be subject to inspection.

Animals in this section will be given a grade code "P". Application for registration shall be made on a form approved by the council before the animal is 270 days old. A late fee will be charged for registration if the animal is over 270 days old (9months).

Application for registration made after the animal is 12 months old will be subject to council approval.

(c) Full blood

A Full blood is defined as an animal of pure French Bazadais origin as determined by DNA, and parent verification.

- (d) Identification Every animal born and eligible for registration shall before it is 90 days be permanently marked by tattoo in the ear with its identification according to the following system: **Herd Designation, Grade Code, Year Code** followed by the **Calf Drop Number** in the off ear or: **Herd Designation** and the **Grade Code** as tattoo in the off ear, with the **Year Code** followed by the **Calf Drop Number** as a tattoo in the near ear. The calf drop number must consist of at least 3 (if not 4) numerals, with leading zeros included where appropriate, and the year code letter may be inserted above the numerals or precede the numerals.

If you opt for the tattoo in one ear you must also brand.

In the event of a mistake being made, an X should be placed alongside the wrong number and the correct number be tattooed and the Society notified of the correction.

- (e) Dehorning Dehorning of cattle will be the decision of the breeder or owner of the beast. If an animal develops scurs of any length after it has been registered as a Poll the owner must notify the Society which will bear the cost of re-issuing the Certificate of Registration after amendment to the animal's "poll" record. All Full Blood Bazadais are classed as horned, any Bazadais registered as poll are to be born poll.

#### 4. DE-REGISTRATION

- (a) Any animal may upon the written application of its registered owner be de-registered as at a specific date and shall be recorded.
- (b) The Council may -
- (1) Decline to enter any animal on the Register or to record the transfer of any animal if the appropriate fees are not paid.
  - (2) Cancel or defer any registration of an animal if the person recorded as the owner of such animal shall fail to pay to the Society within 60 days after demand, the monies certified by the Society's Auditor to be payable whether such monies payable in respect of Annual Subscription or other fees.
  - (3) Defer the entry in the register of any animal sold, exchanged, leased or otherwise disposed of if no application for transfer for such animal be lodged with the Society pursuant to these regulations or in any particular case if the prescribed fee be not paid within 90 days of transaction.
- (c) Subject to the proviso to regulation (3) hereof, de-registration of any animal shall not affect the registration of any calf of which such an animal is the sire or dam if the registration of such calf was recorded during the period of registration of such animal. De-registration alone shall not constitute a disqualification from re-registration.

#### 5. MULTIPLE OWNERSHIP

- (a) There will not be more than 4 owners who are members of ABCS of any sire or dam, one of whom for recording purposes shall be designated to be the Nominee Owner. Such multi-ownership will only be recognised in terms of quarter-share (25%) units.
- (b) When a sire or dam has multiple owners, a copy of the agreement of entitlement and a copy of the names of the representatives and the partner deemed to have possession must be recorded with the Society which shall record a nominee owner on its computer files.
- (c) The registered owner (or nominee owner) of the donor dam at the time of conception shall be known as the breeder of the resultant progeny.

#### 6. TRANSFER OF ANIMALS AND EMBRYOS

- (a) Application for transfer of any animal registered with The Australian Bazadais Cattle Society shall be forwarded to the Society by the animal's registered owner on the forms approved by the Council. The owner shall complete the transfer certificate set out on the back of the Registration Certificate, and forward it to the Society together with the transfer fee and levy as

prescribed, within 90 days of the date of sale. Transfer forms received by the Society after 90 days must be accompanied by a "late fee" to be accepted.

The prescribed fee applies to all registered animals.

Every animal shall be registered and the registration fees paid by its owner before it is transferred.

Transfer fees shall be paid to the Society by the Vendor.

- (b) Transfer of a registered female with a calf at foot: - The breeding date of the cow must be substantiated and the calf at foot registered by the vendor, and transferred to the new owner, as a separate transfer application.
- (c) Transfer of registered animals from overseas: - Applications for registration of animals transferred from other countries must be signed by the importer showing date of importation and include certificates verifying that they were registered in the country from which they came. If an animal is in calf, in order to register progeny, in Australia, the service information must be verified by the recording Society in which the service sire is registered.
- (d) Section 11 of the Regulations describes Embryo Transfer and Frozen Embryos. The Society maintains a Embryo Sub Register and each embryo is issued with an embryo Registration Certificate. If a registered embryo is sold, the vendor is responsible for submission of the completed Record of Ownership Transfer form, which exists on the reverse side of the Embryo Registration Certificate, within 90 days of the date of sale. Only registered embryos can be transferred to a new owner and every embryo must first be registered if transfer (sale) is applicable.  
The prescribed transfer fee applies to any sale of registered embryos and a "late fee" is applicable if record of transfer is received by the society later than 90 days after the sale.
- (e) If a bull or female registered with the Society be leased for breeding purposes a copy of the agreement signed by the Lessor and the Lessee shall be forwarded to the Society together with the appropriate fee within 90 days of commencement of the lease agreement. The commencement date and intended completion date shall be fully disclosed on the copy of the agreement forwarded to the Society. If the leased animal is a female then the lessee will in all cases be considered the owner of the dam at the time of conception, and any embryo and /or calf if such conception occurs during the period of the lease.
- (f) The leasing of registered females / bulls shall include the provision for leasing of multi owned registered animals. If such lease is required by another member of the Society then written endorsement is required from all part owners before being approved by the society.
- (g) The lessee of a female shall be the designated breeder and first owner of all embryos resulting from any flush which occurs during the period of the lease
- (h) Where an animal is the subject of a lease agreement a transfer application and prescribed fee must be submitted by the lessor in favour of the lessee. At the expiration of the lease the animal shall be transferred back to the lessor's membership without fee.

## 7. DISPERSAL SALES

This regulation shall apply in all cases in relation to the promotion of any offerings under the heading "Dispersal Sale" -

- (a) A Vendor may dispose of interests in a section of his animals, embryo stock, semen or breeding service contracts by advertising the details of such offering in a manner which is unambiguous and which does not imply a complete or total dispersal of his herd, embryos, semen stock or breeding service contracts.
- (b) Any Vendor may offer to dispose of his entire herd, embryo stock, semen stock of breeding services agreements by advertising and conducting a phased dispersal sale provided that all such dispersals shall be in accordance with these regulations.

- (c) A Vendor who offers a complete or total dispersal of his herd, embryo stock, semen stock or breeding contracts shall catalogue and present for sale all registered animals, semen, embryos and breeding contracts in which he had any interests (health status and viability permitting) and all such animals, semen, embryos and breeding contracts and all rights therein shall be offered in accordance with these Regulations, provided that the member shall have the right to cancel the dispersal sale before its commencement.
- (d) On completion of a dispersal sale, the vendor of the above mentioned interests will surrender the right to use the herd prefix of the dispersed herd in the registration of any future calves of that breed.

## 8. MATINGS

- (a) A member may use artificial insemination (A.I.) or Natural Service in a registered herd provided he/she completes all information required on the Society's Mating Calving and Registration Data form (Form B1 - refer Appendix II). Only registered sires may be used.
- (b) Owners of registered Bazadais bulls desiring to market semen that is intended for the production of registered calves are required to :
  - (1) Notify the Society in writing of the intention to use a bull as an A.I donor sire and complete application for AI Sire Registration – See appendix X.
  - (2) provide a three-generation pedigree.
  - (3) provide a DNA certificate of the bull. Refer section 10.
  - (4) pay to the Society any registration fee in force from time to time.
  - (5) receive Society approval following inspection as required
- (c) A current list of all registered Donor Sires is available from the Society Secretary upon request.
- (d) Registration of calf by non owned sire requires completion of Certificate of Service Form. See Appendix XI.

## 9. ARTIFICIAL INSEMINATION

- (1) The sires are to qualify under section 8.(b)

## 10. DNA RECORDING

DNA Recording of all breeding stock is required to verify parentage.  
DNA Applications are available from the DNA service provider.

## 11. EMBRYO TRANSFER AND FROZEN EMBRYOS

- (a) Form B2 covering **Embryo Registration Application** (refer Appendix VI) within Australia can be obtained from the Society prior to any collection of embryos. Within 180 days after the collection of embryos from each donor dam a separate application Form B2 must be completed and returned to the Society together with payment of appropriate fees for the preparation and maintenance of records in an Embryo Sub-Register.  
  
Registration of live calves resulting from embryo collection within Australia can only proceed after extraction of the necessary information from the Sub-register.
- (b) The DNA and pedigree of the donor sire and the donor dam used in embryo transfer programmes are to be supplied by the owners of the animals to the Society within 180

days of the collection or importation date of embryos, if not previously on record with the Society

- (c) Parentage determination certificates are required to determine actual sire if multiple sires have been used for inseminating the donor female.
- (d) **Embryo Registration Certificates** (refer Appendix VII) are issued by the Society to the owner (or nominee owner) of any donor dam following operation (either surgical or non-surgical) for the collection of embryos and satisfactory submission of the Form B2. A Record of Ownership Transfer is printed on the reverse side of the certificate and must be completed by the vendor if an embryo is sold (either frozen or in utero) before birth of the subsequent calf. .
- (e) After receipt of prescribed fees and processing by the Society, this Embryo Registration Certificate is forwarded to the new owner to be used to register the resultant calf.
- (f) Recipient females must be ear-tattooed or ear tagged.
- (g) Progeny born from embryo transfer will only be registered provided the member submits the relevant details of calving on the Form B3 (which is on the lower half of the Embryo registration Certificate) before the animal is 270 days old and also submits the prescribed registration fees.

## **12. PROCEDURES TO IMPORT SIRES, DAMS, SEMEN AND EMBRYOS AND REQUIREMENTS TO REGISTER PROGENY**

Before the Society can accept into its Herd Book any imported sire, dam, semen or embryos, it must receive:

- (a) An export certificate from the recognised Breed Society of the exporting country verifying the transfer of ownership.
- (b) An extended pedigree to three (3) generations (in cases of embryos, for both parents).
- (c) 1. For live animals and Semen:- DNA of the animal, or sire.  
2. Embryos:- A separate DNA for each of the sire and dam.
- (e) Payment of the prescribed fees as set out from time to time.
- (f) Imported embryos must be recorded on the Embryo Registration Application Form B2 by the importer. Embryos imported by any commercial genetic company will be required to be registered with ABRI before sale to members.
- (g) Owner/Breeders may transfer registered embryos either frozen or in utero in accordance with these rules by completing Record of Ownership Transfer information on the reverse side of the Embryo Registration Certificate.
- (h) Recipient females must be ear-tattooed or ear-tagged.
- (i) No progeny arising from imported embryos will be registered unless the application is submitted on the Form B3 portion of the Embryo Registration Certificate first issued to the Australian importer of which has been duly transferred by the importer who first registered such embryos.
- (j) Live animals will be subject to an inspection by an inspector appointed by the Society at the expense of the importer.
- (k) All sires used for mating to prospective donor dams (with the expectations of Australian registration for resultant progeny) must be either owned in the other country by the applicant or be approved by the Society as a donor sire.

## **13. SOCIETY - SPONSORED SHOWS AND SALES**

A clause must be inserted in all entry forms stating that the vendor agrees to abide by the rules and regulations of the Society show and sale committee. Animals are subject to inspection and those not meeting

the inspection criteria are to be offered at the end of the sale. Animals with physical defects will be withdrawn from sale. Inspectors will be appointed by the Society Council but not be named. The inspection panel must include a representative of the selling agent(s). Prior to the commencement of a Society - sponsored sale the recommended upset price must be set by the Society.

#### **14. BAZADAIS BREEDPLAN - PERFORMANCE RECORDING**

The Society approves and encourages members to record the performance of Bazadais, Bazadais-cross animals. These records can be submitted to the Society for the processing of individual reports and the building of a suitable data bank for analysis of breed performance at a suitable future date, when there are sufficient records. The Society endorses the use of BAZADAIS BREEDPLAN, a system operated by the Agricultural Business Research Institute (ABRI) for performance recording, which has been integrated with the Bazadais Recording Register. Further information about BAZADAIS BREEDPLAN is available on request from the Society.

Members who utilise this service are requested to pay the prescribed fees for performance recording direct to BREEDPLAN.

#### **15. ERRONEOUS ENTRY**

- (a) Should any animal be admitted to entry or transferred through misrepresentation or fraud, the Council on discovery of same shall declare the entry or transfer void; together with any entries that have been made of descendants of that animal. The Council may direct the Registrar to refuse any subsequent application for registration or transfer dependant on the signature of any person implicated in such fraudulent entry of transfer. Errors will be resolved as to parentage by DNA testing.
- (b) Notwithstanding anything herein contained, the Society assumes no responsibility, financial or otherwise, for any loss or damage that may be sustained by any individual, partnership or company by reason of the suspension, cancellation, or correction of any registration, transfer or other document or by reason of the rejection of any application for membership in The Australian Bazadais Cattle Society.

#### **16. FEES**

The Council shall from time to time prescribe a schedule of fees levies and other charges including penalties payable under these regulations and the times for payment thereof which shall be appended to and form part of these Regulations (refer Appendix I).

**APPENDIX 1.****FEES**Applicable from 31<sup>st</sup> December 2008

The Society operates on a cash basis. Registration fees are based on the date of the postmark, indicating the date mailed to the applicant.

<b>1. Membership:</b>	(This is on a calendar year basis)	
	Annual Membership	\$150.00
	Annual Associate Membership	\$ 50.00
	Annual Commercial Membership	\$ 50.00
	Annual Junior Membership	\$ 25.00
<b>2. Joining Fee</b>	Once only fee Full Membership	\$200.00
	Once only fee Commercial Membership	\$ nil
	Once only fee Associate Membership	\$ nil
	No fee for Junior Membership	
<b>3. Registration &amp; Recording of calves</b>		
	<b>A: for Animals under 270 days (9months) of age</b>	
	Full blood & Pure bred Bazadais females	\$ 25.00
	7/8 Bazadais females	\$ 10.00
	3/4 Bazadais females	\$ 7.00
	1/2 Bazadais females	\$ 5.00
	Full blood , Pure bred or 15/16 Bazadais bulls	\$ 25.00
	3/4 & 7/8 Bazadais bulls	\$ 10.00
	<b>B: for Animals over 270 days (9 months) of age</b>	
	Full blood & Pure bred	\$ 50.00
	7/8 Bazadais females	\$ 20.00
	3/4 Bazadais females	\$ 14.00
	1/2 Bazadais females	\$ 10.00
	Full blood , Pure bred or 15/16 Bazadais bulls	\$ 50.00
	3/4 & 7/8 Bazadais bulls	\$ 20.00
	Note that animals over 12 months old shall be registered only at the discretion of Council.	
<b>4. Embryo Registration Fees</b>		
	Within 180 day of collection or importation date	\$ 5.00
	After 180 days of collection or importation date	\$ 20.00
<b>5. Existing Registration</b>		
	ABCS registration of cattle with existing registration (Copy of existing registration papers to be forwarded)	\$ 15.00
<b>6. Transfer or Lease Fees</b>		
	<b>A: Within 90 days of Sale</b>	
	All recorded live cattle	\$ 15.00
	Embryo	\$ 15.00
	<b>B: After 90 days of Sale</b>	
	All recorded live cattle	\$ 30.00
	Embryo	\$30.00
	<b>C: Lease Agreement</b>	
	All animals ( includes retrun transfer fee)	\$30.00
<b>7. Other Items</b>		
	Duplicate Certificate	\$ 3.00
	Extended Pedigree	\$ 10.00
	Additional copies of Pedigree	\$ 3.00
	Change of Animal's name at owners request	\$ 25.00
	A.I. Donor Sire Fee	\$200.00
	Donor Dam Fee	\$ 50.00

### Appendix III Recording Instructions B1

#### **General Instructions:**

1. DNA profile and parent verification is required for all cattle put forward for registration.
2. Only DNA profile is required for all cattle registered with ABCS prior to 26.11.2005.
3. The recording forms are self carboning. Recording should be neat and made firmly so that your second copy is also clear.
4. The shaded sections of the form B1 must be recorded, unshaded sections are optional. Line zero gives an example of the recording of a three quarter bred female calf in herd XYZ.
5. Form B1 is to be used only for natural born calves. Form B2 is for recording the flushing of embryos for embryo transfer. Form B3 is for recording calves born after appropriate gestation of implanted embryos.
6. Dams of grades 1, 2, 3, P and Fullblood must be both registered with the Society and current as per the female inventory system before their progeny will be accepted for registration. Sires must also be registered with the Society.
7. If you wish to performance record you need to first take out separate membership with "BREEDPLAN". Then mark Y = Yes in the appropriate space at the bottom left hand corner of the Form B1. Thereafter, you should record details of all calving, including still births. All live calves will be included on a computer printed list for recording weaning weights at about 200 days.
8. Mail the top copy of the B1 form together with registration fees, DNA profile, Parent verification, (Certificate of Service for non owned sire - Regulation 8 (d) ) for each animal requiring registration. Forward to Registrar at ABRI within 270 days of calf birth.
9. File the second copy and associated paperwork for future reference.

#### **Herd Designation:**

The 3 characters assigned to the member by the Society.

#### **DAM**

**Ident No.** - this must be recorded accurately and includes:

**HERD** - The 2 or 3 character herd designation of the breed of the dam

**GDE** - grade, based on the code.  
 0 = Base Dam  
 1 = 1/2 bred Bazadais  
 2 = 3/4 bred Bazadais  
 3 = 7/8 bred Bazadais  
 4 = 15/16 bred Bazadais (male only)  
 P = Purebred (15/16 or above for female – 31/32 or above for male)  
 F = Full Blood Bazadais (Full French traceable parentage)

**YR** - alphabetical year of birth code.  
 1995=Q 1996=R 1997=S 1998=T 1999=U 2000=V 2001=W 2002=X 2003=Y 2004=Z 2005=A  
 2006=B 2007=C 2008=D 2009=E 2010=F 2011=G 2012=H 2013=J 2014=K 2015=L 2016=M  
 2017=N 2018=P 2019=Q 2019=R

**\*\* Please note** that the letters "I" and "O" are not included in the above list because they are not included in the official list of letters adopted by BREEDPLAN.

**NUMB** – animal number, up to 4 digits all numeric.

Hence XYZ1R035 is the ident number of a F1 animal (grade=1), in herd XYZ, born in 1996 (R) and with the tag number of 35. Take care that you do not use the same identification number for more than one animal.

**Fate** – see codes at bottom of the Form B1

**Permit** – Y=yes: Dam is leased or breeder has a permit for its use: blank if not leased.

**Breed** - Record a breed for the base dams the first time they are used only. Do not record a breed for registered, crossbred or purebred dams.

Examples of Breed Coding: Use 2 character codes See the attached sheet for the codes for the breeds.

1. Hereford sire and dam =HHHHHHHH
2. Angus sire x Hereford dam =AAAAHHHH
3. (Angus x Hereford sire) X (Murray Grey x Shorthorn) dam =AAHHMGSS

### **SIRE**

**Ident No.** – All registered donor sires are given unique code by the society and these should be used for identification. Other sires which have been bred in Australia will have an identification number in the Australian Herd Book and this will be printed on their Registration Certificates.

**Name** – it is desirable to record the name of the sire or an abbreviation of it to assist in checking that the correct sire ident has been used

**Mating date** – if the sire was joined by AI the mating date must be supplied. AI? Y=Yes: leave blank if paddock served.

### **CALF**

**Ident No.** – used the same convention as for sire and dam ident. The NUMB part of the ident should correspond to the tattoo on the calf's ear e.g. 001. For the first calf dropped, 002 for the second and so on. The example on the line zero is for a three quarter bred female; the fifth calf in 1999 XYZ2U005

The grade of any calf is determined from the following table by the grade of its sire and dam.

	<b>DAM</b>				
	Base Dam 0	½ Bred 1	¾ Bred 2	7/8 Bred 3	15/16 P
<b>SIRE</b>	1	2	3	4/P	P
<b>Full Blood only</b>					

**Name** – a name up to 12 alphabetical and numerical characters may be recorded.

**Birth Date** – must be recorded accurately as day/month/year.

**Birth weight (kg)** – optional data, if recorded it must be in whole kilogram.

**Calving Fate** – optional data, all permissible codes recorded at the bottom of the form B1

**Twin, Abnormal** – Y= Yes, N=No

**Colour** – optional data, R=Red, BL=Black, BR=Brown, G=Grey.

**Sex and Poll** – See codes at the bottom of Form B1.

**Register?** – Y=Yes, mark this clearly and submit fees according to the number of calves so marked. All animals must be registered prior to transfer.

Breeder (Nominated Member) should sign each form, attach fees and forward to the Society for processing within 270 days of birth of calf.

**If you have any queries regarding completion of any forms please do not hesitate to contact the Secretary for assistance.**

## APPENDIX VII

### Recording Instructions for Form B2

#### General Instructions:

1. Form B2 is for recording the flushing or importation of embryos for embryo transfer.
2. The recording forms are self carboning. Recording should be neat and made firmly so that your second copy is also clear.
3. Mail the top copy of the B2 Form together with registration fees, copy of pedigree and details of DNA for Sire and Dams to the Registrar at ABRI within 180 days of flush or importation.
4. File the second copy and associated paperwork for future reference.
5. DNA profile and parent verification is required for all cattle put forward for registration unless already on file.
6. Only DNA profile is required for all cattle registered with ABCS prior to 26.11.2005.

<b>Applicant Name</b>	The owner of the embryos
<b>Herd</b>	The 3 characters assigned to the member by the Society.
<b>Donor Dam and Sire Ident No.</b>	The Tattoo of the animal This must be recorded accurately.
<b>Mating Date</b>	Date of service
<b>AI</b>	Mark yes or no – If straw used for insemination
<b>Natural</b>	Mark yes or no – If Bull used for insemination
<b>Flush Date</b>	Date embryos flushed from donor cow
<b>No. of embryos</b>	Number of embryos recovered from flush
<b>Implanted</b>	Number embryos Implanted hot on the day
<b>Frozen</b>	Number of embryos Frozen on the day
<b>Embryo No.</b>	Numbered 1,2,3,4
<b>Split No.</b>	If split Numbered 1-A,1-B
<b>Frozen straw number</b>	Number written on embryo straw by Veterinary
<b>Embryo Status</b>	
<b>Implanted =R</b>	
<b>Frozen = F</b>	Write R or F against the embryo number
<b>Recipient Tattoo No.</b>	Use your herd ident and an ear tag number for the cow eg. ABC123
<b>Recipient Breed code</b>	Breed of Cow used as recipient. Code you will find at back of Regulations under Standard Breed Codes

Breeder or owner (Nominated member) to sign and date form and forward to Registrar at ABRI with appropriate fees and documentation within 180 days of flush or importation

**If you have any queries regarding completion of any forms please do not hesitate to contact the Secretary for assistance.**

## **APPENDIX XII INFORMATION ON BAZADAIS BREED STANDARDS**

For consideration by Bazadais enthusiasts in Australia

The following are a few characteristics to look for when considering Bazadais from the point of view of type and conformation.

### **Overall Appearance is one of Balance:**

The Bazadais has a refined outline showing good conformation and thinness of bone. Characteristically revealing femininity, strength and vigour. An ease of movement enhances their athletic and mobile nature.

### **Coat & Colour:**

Calves: - Born a beige to wheaten shade gradually becoming grey at about 3 months of age.

Cows - Coat is short the colour varying from light to dark grey

Bulls - Coat is short and smooth the colour varying from steel grey to lighter grey body and can have a dappled appearance, showing darker colour from the shoulder forward and from the pin to the hock. The bulls invariably have a white sword through the shoulders and withers to the middle of the back.

### **Height & Weight:**

Cows - Average height 140 centimetres      Average Weight 750kg

Bulls - Average height 145 centimetres      Average Weight 1100kg

### **Head and Neck:**

Head is triangular and of medium size, a good width of muzzle presenting an even bite (not over or under shot), and an open nostril. The eye is clear, soft, but alert. Well hooded surrounded by a dominant silver circle with clear mucous membranes.

The neck is neatly coupled to a sloping shoulder.

### **Shoulders and Chest:**

A broad deep chest, a smooth brisket, carrying good meat coverage from the shoulder blade to the forearm with a wide square stance.

### **Body:**

Extreme length, exceptional spring and depth of rib with a full top line. Showing excellent meat cover from behind the shoulder to the loin.

### **Hindquarter:**

Showing straight top line with a well set tail. Good width of hip and excellent length from hip to pin, extending to a wide ham like rump with full depth to the hock allowing a broad stance behind giving good air circulation to the scrotum.

### **Legs and Feet:**

Legs not showing excessive length are straight to a strong pastern, the hoof is hard, black with a good height of heel, being even and free of corns and irregular hoof growth, making the beast adaptable to all terrains.

### **Udder:**

Even square bag with well set teats of ideal suckling size, showing good maternal ability.

## APPENDIX XIII

**STANDARD BREED CODES**

Letter Code		Breed Name	Letter Code		Breed Name
2*	1*		2*	1*

You **must** use the codes relevant to your Society - you **cannot** substitute single codes for 2-character codes and vice versa. **Please Note The Australian Bazadais Cattle Society Inc uses 2-character code.**

**APPENDIX XIV  
VISION AND MISSION**

**THE AUSTRALIAN BAZADAIS CATTLE SOCIETY INC.**

**VISION AND MISSION STATEMENT**

**The mission** of The Australian Bazadais cattle Society Inc. can be expressed in many ways;

Our prime motivation is to enhance the backbone of the Australian cattle industry by the introduction of superior and proven genetic qualities while maintaining the integrity of the breed and to educate meat buyers on the financial benefits of quality Bazadais cross-breds.

The Society will encourage the members to provide mutual assistance in growing the size of the pool of full-blood cattle through high flushing rates, embryo acceptance and best possible returns on cattle sales.

The Society is dedicated to making this a reality and is committed to the promotion of the breed at all times and in all places.

**Our vision** is a future in which Bazadais are accepted as the premier beef breed in Australia, being retailed to discerning customers via a chain of devoted wholesalers and retailers.

**BAZADAIS BEEF AT ITS BEST**
